Tester	1

Total Team Members: 10 (including seo and tester)

Estimated Completion Time:1 Month

For The Projects Which Already Have Source Code :

15-20 Days with Two Developers For New Design Integration

The works are managed in a way that devloper will have exactly same work or almost similar type of work on both the projects .and they don't have to depend on other modules to start at their at beginning of project. As Both The project(Portal And Marketplace) share many common modules ,they can be used on both projects if managed properly.
